HOW TO ACCESS YOUR KINGSTON DATATRAVELER® USB

⚠️ Built-in security has a 10 failed attempts feature. If the incorrect PASSCODE is entered 10 consecutive times then all files on the drive will be deleted.
Please call us should you need any assistance.

ACCESS THE USB USING WINDOWS ⊞

1. Insert the device into a USB port on your computer and enter your password.

2. Once you have typed in your password, click the 'Login' button to continue.

✓ If the correct password is entered, the device will unlock, and you can access your data room.

✕ If an incorrect password is entered, an error message will appear just below the 'Hint' field, indicating a log-in failure.

ACCESS THE USB USING IOS (MAC)

1. Insert the DTL+ G3 into a USB port.

2. Double-click the DTL+ G3 DVD icon.

3. Open the Mac folder and double-click the 'DTLplus Launcher' app.

4. Enter your password in the Login window textbox.

5. Once you have typed your password, click the 'Login' button to continue.

✓ If the correct password is entered, the device will unlock, and you can access your data room.

✕ If an incorrect password is entered, an error message will appear just below the 'Hint' field, indicating a log-in failure.

HOW TO ACCESS YOUR KINGSTON DATATRAVELER® USB

ACCESS THE CONTENT (WINDOWS AND IOS)

1   Within the USB, double click on 'Archive HTML View' to open the HTML index structure with your preferred browser (we recommend using Chrome or Edge):

2   Click on Contents tab:

3   You might have to click on 'Allow blocked content' if a browser security message pops up.

4   Your data room HTML index structure is now available:
